Future Stars

Date: [Insert Date]

## INTRODUCTION

ID Future Stars (IDFS) believes in building meaningful, long-term partnerships with families to support each child's unique educational journey. Our collaboration with the Huang family is designed to provide a high-touch, holistic experience that grows with your children—from middle school through the college admissions process. This document outlines the strategic approach, key milestones, value delivered, and the flexible structure of our services for Joshua and his siblings, under the leadership of Rick Singer and the IDFS team.

## OUR COLLECTIVE APPROACH

### ✓ FOCUSED SUPPORT FOR JOSHUA

Joshua will be the primary student of focus for Year 1, with full-service mentorship, in-home visits, academic planning, extracurricular positioning, and application strategy. Rick will meet monthly at your home to guide Joshua through every aspect of his high school and college journey, ensuring alignment with top liberal arts institutions and his developing personal interests.

### ✓ SCALED SUPPORT FOR DOUGLAS

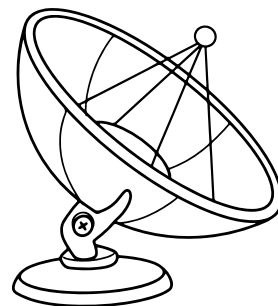

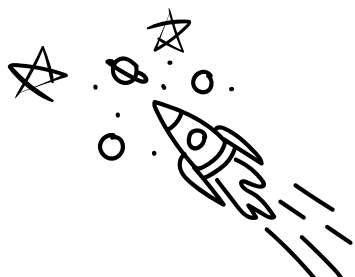

Beginning this spring (April–August), Rick will offer foundational mentorship and preparation for Douglas as he approaches 9th grade, including test prep and readiness support. These efforts will grow in 10th grade into regular weekly or biweekly meetings and one monthly in-person session during Rick's home visits. This prepares Douglas for a full transition into the IDFS program in his 11th grade year.

### ✓ EARLY ENGAGEMENT FOR THE YOUNGER CHILDREN

The younger siblings will benefit from early exposure to the IDFS structure, values, and tools. While they are not yet in high school, Rick will be available to answer questions, provide resources, and help guide their development. This includes advising on enrichment activities, academic readiness, and personal growth.

### ✓ A FAMILY-CENTERED STRATEGY

One of the most unique values of this plan is the integration of the entire family. With Rick's guidance, parents will have year-round access to strategic counsel, recommendations, and feedback across all four children. This helps ensure a consistent and proactive approach as each child progresses toward key educational milestones.

## KEY MILESTONE TIMELINE

### INVESTMENT STRUCTURE

| Program/Person        | Duration  | Fees/Investment   |
|-----------------------|---|---|
| Joshua (Full Program) | Annually  | \$500,000   |
| Douglas (Apr–Aug)     | Part of Full Program                                  | Included in Joshua's fees                               |
| Douglas (10th Grade)  |   | \$100,000–\$200,000                                     |
| Douglas (11th+)       | Alongside Joshua's senior year                        | \$200,000–\$250,000                                     |
| Future Years          | (depending on younger siblings' active participation) | \$75,000–\$150,000<br>(estimated total as they ramp up) |

### SUMMARY OF VALUE DELIVERED

Monthly in-person coaching at your home with Rick Singer for high-impact guidance and accountability- Virtual support across all children from the IDFS team in academics, testing, personal development, and strategic positioning- Flexible, milestone-based approach allowing your family to adapt the focus and intensity of services as your children grow- Lifetime guidance and access through the Family-for-Life charter, supporting your family's evolving educational goals

### EXCLUSIVE PROGRAM ACCESS

As part of this partnership, the Huang family receives full access to the entire suite of ID Future Stars (IDFS) programs. These offerings are designed to support students across academic levels, interests, and personal development goals. Key programs and resources include:

- Academic Excellence Track with Personalized tutoring and enrichment in core subjects (math, science, writing, humanities), AP/IB prep, and standardized test readiness (SAT, ACT, SSAT, ISEE).
- AI & Innovation Labs for Exposure to emerging technologies, data science, AI literacy, and research opportunities through our IDFS AI Immersion Course and advanced mentorships.
- Leadership & Entrepreneurship– A project-based modules designed to cultivate initiative, critical thinking, and executive functioning—ideal for students interested in launching initiatives, nonprofits, or ventures.
- College Admissions Accelerator– A full-service program guiding students through all elements of the college admissions journey—school selection, essays, interviews, scholarships, and personal positioning.
- School Preparation & Placement– Comprehensive planning, school matching, application strategy, and interview coaching for middle and high school transitions.
- Talent & Passion Development– Support for creative and performing arts, athletics, and special passions—paired with expert mentorship and coaching to build portfolios or showcase work.
- Global Citizenship & Community Impact– Volunteer and service-learning pathways, internship placement, and civic engagement projects for purpose-driven leadership.
- Parent Access & Strategy Sessions– Ongoing access to Rick and the IDFS team to discuss each child's development, milestones, and opportunities as they arise.

### SUMMER PROGRAMS

Joshua and the younger siblings will have access to immersive summer experiences valued at **\$35,000** per year, included as part of the program. These programs are designed to inspire intellectual growth and college-level engagement, featuring mentorship by top-tier college faculty, real-world academic projects, and internship opportunities that help students explore their interests and acclimate to a college environment early.
